

Summer STEAM FAQ

Summary:

Summer STEAM is our weekly summer educational programming, where we explore themes in Science, Technology, Engineering, Art, and Mathematics. Projects are mostly collaborative, and are targeted to families with children aged 5-15.

Dates:

Wednesdays in July and August (July 5-August 27th).

Times:

10am-2pm. Participants can drop in at any time during this period to participate. You do not need to stay the entire 4 hours.

Fees?

No fees. The museum's Summer STEAM program is free! You do not need to make reservations or pay to participate.

Examples of programs:

Our schedule is still mutable while we test different activities, but projects include robotics, optics, communication, ship design, propulsion, and more. Visitors can check the museum's Facebook page to see the upcoming activity.
